

What's New for the 2022–2023 School Year?

2021 was a crucial year in our journey. Imagine Learning brought products and solutions together under one brand, and Edgenuity® became Imagine Edgenuity in order to empower more educators, engage more students, and connect more families to online and blended learning.

In 2022, we are delighted for you to experience our new brand as we continue to re-imagine learning.

IMAGINE EDGENUITY'S EXPANDED CONTENT AND FEATURES

We are excited to add two new courses to the Imagine Edgenuity catalog:

- Computer Applications: Microsoft Office® 2019
- Middle School Computer Science

We are also updating the following five existing courses:

- AP Human Geography*
- AP Environmental Science*
- AP Psychology*
- AP Calculus AB
- Middle School Civics, Economics, and Government

* No textbook purchased required; all required reading is included in the online materials.

Robust Data and Reports at Your Fingertips

The **Administrator Dashboard** will be your one-stop shop for all critical data needs, accessible directly from the Imagine Edgenuity homepage. The intuitive design and experience will focus on:

- **District Usage** report that provides data and key performance indicators overall implementation and utilization
- **Student Activities** report details performance and growth indicators

4 Results

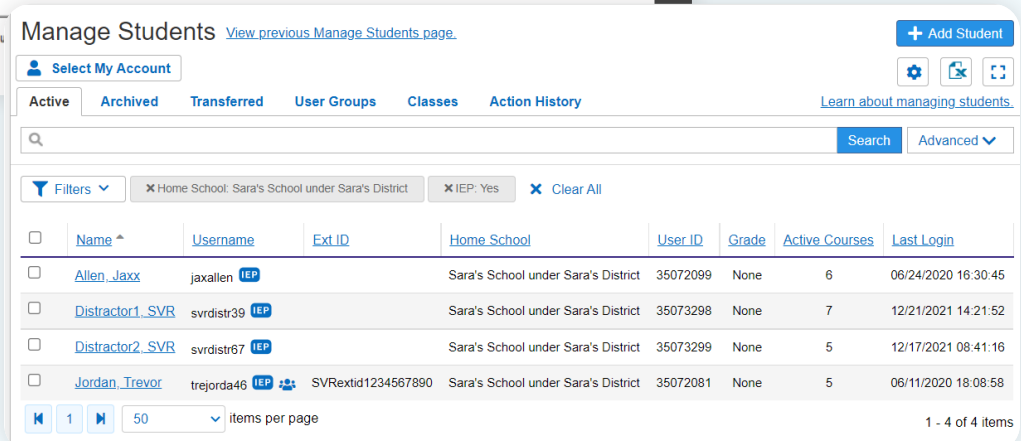

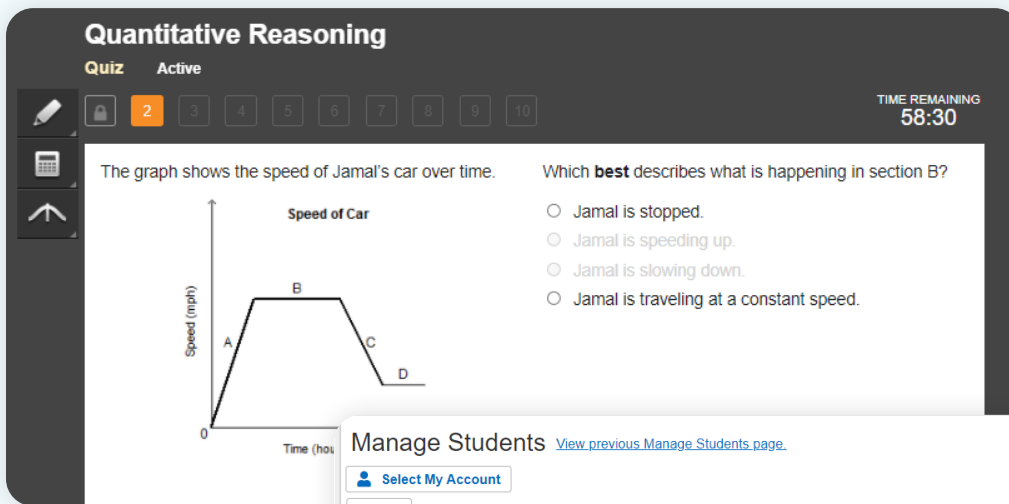

We are enhancing your ability to get student **enrollment data** efficiently and effectively by releasing four new reports with a pre-defined set of parameters. Educators can easily export these reports from the Manage Enrollments page.

1. Student pacing
2. Not Started or Completed enrollments
3. Enrollment list for the start of the school year
4. Assignments to be graded

As an educator, providing accommodations to your students with **Individualized Education Programs (IEPs)** or 504 plans is essential to their learning. For 2022, Imagine Edgenuity is excited to launch new features that allow you to easily make those accommodations.

- IEP icon for quick identification on Manage Students page
- Reduce distractors on assessments
- Reduce the number of questions on assessments
- Hide the assessment timer
- Adjust the assessment timer for lesson pretests

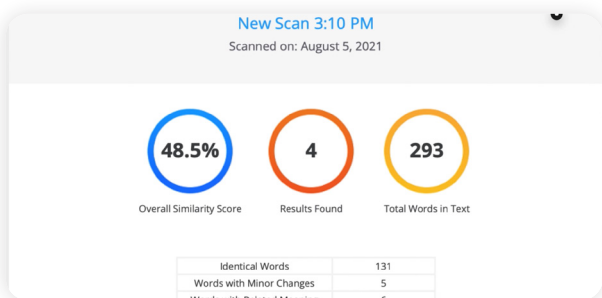

Prioritizing Academic Integrity*

We know you deeply care about academic integrity. That's why we released point-of-use features like the Plagiarism Checker and the beta version of the Speed Radar in 2021. For back-to-school 2022, we are thrilled to make these features even more valuable with additional enhancements:

*To get these features added to your district, contact your Imagine Learning Account Executive about the Academic Integrity Bundle.

PLAGIARISM CHECKER:

This feature automatically scans final student submissions looking for matches across the internet and when a match is found, the submission is flagged for the teacher with a detailed report.

SPEED RADAR:

It will move from beta to general availability with an easy toggle to help you gather insights when students are progressing through activities faster than expected.
